

💡 Founder Success Pattern Summary:

1. Strong Alignment with Investor Interests:

- Founders who pitched in **EdTech, HealthTech, Food & Beverage**, and **Assistive Tech** secured higher deals.
- Top ideas like *EdTech App* and *Braille Literacy Devices* show that solving **real-world, scalable problems** gets attention.

2. Prepared & Realistic Pitching:

- The donut chart shows that **over 90%** of the asked funding was actually closed—suggesting that **realistic valuations** and **well-prepared pitches** resonated with investors.

3. Brand & Vision Matter:

- Brands like *Aas Vidyalaya* and *Annie* gained major deals, implying that **clear branding, social impact, and execution plans** likely influenced investor decisions.

4. Diverse Sectors, Similar Traits:

- Despite varying sectors, successful founders shared traits: **innovation, clarity, scalability, and a compelling story.**
